SUMMARY

Motivated and detail-oriented Full Stack Developer with academic training in Python, Django, PostgreSQL, and modern web technologies. Recently completed full stack development coursework and hands-on projects involving responsive design, backend development, and database management. Eager to apply problem-solving skills and continue learning in a collaborative development environment.

EXPERIENCE

Full Stack Developer Intern

- Created responsive web pages using HTML, CSS, JavaScript, and ReactJS.
- Worked closely with the design team to implement UI/UX best practices.
- Participated in Agile sprints and presented progress in weekly stand-ups.

Tegfly — Aug 2024 – Nov 2024

Junior Full Stack Developer

- Built 4+ full-stack projects using Django, HTML, CSS, and PostgreSQL.
- Developed RESTful APIs and integrated them with responsive front-end UIs.
- Handled end-to-end development from database to deployment.
- Used Git for version control and collaborated in Agile teams.

Tegrand Infotech — Nov 2024 – Present

PROJECTS

FOODZ — Built a responsive food booking and checkout website with dynamic offer application to boost purchases and user retention.

BLOGGER — Developed a blogging platform with tagging, filtering, and content management using Django and PostgreSQL.

SMART EV CHARGING STATION FINDER — Designed an AI-powered college project for real-time EV slot booking and availability tracking using location-based services and smart scheduling logic.
